

# Welcome to Canada!

Welcome to **Canada**, the North American country nearest to the North Pole!

Today Canada is its own country. Long ago, it belonged to England. Before that, it belonged to France.

## 5 Biggest Countries in the World

1. Russia
2. Canada
3. United States
4. China
5. Brazil

Canada is the second-biggest country in the world by size. It covers most of the top of **North America**.

**American Indians** were the first people living in Canada. Canada's name comes from an American Indian word for *village*.

Some of the world's prettiest land is in Canada.

The north of Canada is very cold. It is often covered with snow and ice. Few people live there.

Canada has deep, green **forests**. It also has tall, rocky mountains. Mount Logan is the tallest mountain in Canada.
